Azam IT Launches New Voice Recording and Storage System

Software designers and distributors **Azam International Technologies** have launched their new voice recording, dictation and distribution system that, they say, will enable campaigners to use an alternative form of communication.

***Azam** supports the initiatives of many campaigners by increasing the impact of their message", says inventor **Andronicos**. "Using the power of voice to contact someone makes **Azam** a useful addition to online communication."*

Campaigners have been overwhelmingly positive about the opportunities that such an affordable, simple to use and easy to implement software tool brings. One campaigner for world peace said, *"My aim is to generate support by getting my message to as many people as possible. The novelty of receiving a voice attachment results in fewer people discarding my email - people are curious to hear it. When they do I can be more persuasive aurally, where they can hear my emotion and tone, rather than just cold written words."*

Azam allows meetings and face-to-face discussions to be recorded, stored and emailed in whole or in part. Ancillary uses include a voice diary and phone function that records conversations or messages. These too can be edited and emailed. Additionally, a fully functional answer phone system is included.

Users need only have:

*A PC (not yet available for Apple users)
Windows 98, ME, 2000 or later versions
Sound card and Microphone (free with despatched version)
Hard disk space for stored recordings*

The phone recording and answer phone functions require a V92 voice modem (Standard on many new PC systems). For those who need to upgrade, or who have laptops, V92 voice modems are available at leading computer retailers.

The amazing **Azam** can be downloaded **free** from www.azamit.com. It is simple to install and very easy to use. It is free to use for the first 30 days. Thereafter, most users pay a one-off registration fee of just £29.99. Under the Azam Disabilities Initiative (**ADI**) however, users with disabilities qualify for a free copy from any charity (NGO) taking part in the initiative.

Alternatively, a boxed package complete with user manual and quality condenser microphone can be ordered for £49.99. Orders can also be placed through the website at www.azamit.com, or by post from:
